Instructions for submission of final version of conference paper and submission of IEEE copyright and consent form

Important notice: Your completed Final full paper in PDF format (using only IEEE PDF eXpress) must be uploaded to the conference website only from June 14th 2020 by September 26th 2020 at latest. (It is important to note that submitting a file to IEEE PDF eXpress is only for creation of a compliant PDF file, you must still submit your Final paper through conference online submission).

Basic information:

- Conference EPE 2020 has been registered for use of IEEE PDF eXpress (<http://www.pdf-express.org/plus>)
- IEEE PDF eXpress is a free service to IEEE conferences, allowing their authors to make IEEE Xplore-compatible PDFs (Conversion function) or to check PDFs that authors have made themselves for IEEE Xplore compatibility (PDF Check function).
- The conference proceedings is indexed in Interactive Electronic Library (IEL) as a part of IEEE Xplore.
- All conference papers submitted for indexing in IEEE Xplore have to follow given requirements and IEEE Xplore compatibility verified with application IEEE PDF eXpress.
- The paper has to be prepared according with the Template (<http://epe-conference.cz/for-authors/>).
- The organizing committee of the conference / IEEE stipulates the right to discard the non-presented paper from distribution. The discarded papers will be archived in IEEE, but they will not be indexed, nor presented in IEEE Xplore.

Important notice: The Final paper must be also resubmitted (inserted into to the conference web site) by those authors, whose papers passed the review process and are marked as "Accept in its current form".

Without next steps your paper will not be included at IEEE Xplore!

1. Instructions for elaboration of the Final paper

Step 1: The bottom of the first (first only!) page of your paper has to include “copyright notice” according to the following instructions(see the figure below):

- For papers in which all authors are employed by a Crown government (UK, Canada and Australia), the copyright notice is: **978-1-7281-9479-0/20/\$31.00 ©2020**
- For papers in which all authors are employed by the European Union, the copyright notice is: **978-1-7281-9479-0/20/\$31.00 ©2020 European Union**
- For all other papers the copyright notice is: **978-1-7281-9479-0/20/\$31.00 ©2020 IEEE**

Abstract—This electronic document is a “live” template and already defines the components of your paper [title, text, heads, etc.] in its style sheet. ***CRITICAL: Do Not Use Symbols, Special Characters, or Math in Paper Title or Abstract.** (*Abstract*)

Keywords—*component; formatting; style; styling; insert (key words)*

I. INTRODUCTION (*HEADING 1*)

This template, modified in MS Word 2007 and saved as a “Word 97-2003 Document” for the PC, provides authors with most of the formatting specifications needed for preparing electronic versions of their papers. All standard paper components have been specified for three reasons: (1) ease of use when formatting individual papers, (2) automatic compliance to electronic requirements that facilitate the concurrent or later production of electronic products, and (3) conformity of style throughout a conference proceedings. Margins, column widths, line spacing, and type styles are built-in; examples of the type styles are provided throughout this document and are identified in italic type, within parentheses, following the example. Some components, such as multi-leveled equations, graphics, and tables are not prescribed, although the various table text styles are provided. The formatter will need to create these components, incorporating the applicable criteria that follow.

II. EASE OF USE

A. Selecting a Template (*Heading 2*)

First, confirm that you have the correct template for your paper size. This template has been tailored for output on the A4 paper size. If you are using US letter-sized paper, please close this file and download the file “MSW_USltr_format”.

B. Maintaining the Integrity of the Specifications

The template is used to format your paper and style the text. All margins, column widths, line spaces, and text fonts are prescribed; please do not alter them. You may note peculiarities. For example, the head margin in this template measures proportionately more than is customary. This measurement and others are deliberate, using specifications that anticipate your paper as one part of the entire proceedings,

Check / Add the copyright notice to the centre of the first page footer of your paper.

and not as an independent document. Please do not revise any of the current designations.

III. PREPARE YOUR PAPER BEFORE STYLING

Before you begin to format your paper, first write and save the content as a separate text file. Keep your text and graphic files separate until after the text has been formatted and styled. Do not use hard tabs, and limit use of hard returns to only one return at the end of a paragraph. Do not add any kind of pagination anywhere in the paper. Do not number text heads—the template will do that for you.

Finally, complete content and organizational editing before formatting. Please take note of the following items when proofreading spelling and grammar:

A. Abbreviations and Acronyms

Define abbreviations and acronyms the first time they are used in the text, even after they have been defined in the abstract. Abbreviations such as IEEE, SI, MKS, CGS, sc, dc, and rms do not have to be defined. Do not use abbreviations in the title or heads unless they are unavoidable.

B. Units

- Use either SI (MKS) or CGS as primary units. (SI units are encouraged.) English units may be used as secondary units (in parentheses). An exception would be the use of English units as identifiers in trade, such as “3.5-inch disk drive.”
- Avoid combining SI and CGS units, such as current in amperes and magnetic field in oersteds. This often leads to confusion because equations do not balance dimensionally. If you must use mixed units, clearly state the units for each quantity that you use in an equation.
- Do not mix complete spellings and abbreviations of units: “Wb/m²” or “webers per square meter,” not “webers/m².” Spell units when they appear in text: “...a few henries,” not “...a few H.”
- Use a zero before decimal points: “0.25,” not “.25.” Use “cm³,” not “cc.” (*bullet list*)

If you want, put acknowledgements in the unnumbered footnote on the first page of your paper.

Step 2: Proofread your source document (paper) thoroughly to confirm that it will require no revision (It is highly recommended that you do this before going to IEEE PDF eXpress).

Step 3: Convert your paper from your source application format to Xplore-compatible PDF using IEEE PDF eXpress - see following procedure:

- Log in to the IEEE PDF eXpress site (see the figures below) <https://www.pdf-express.org/>

First-time users should do the following:

1. Select the “New Users - Click Here” link.
2. Enter the following:
 - **51172XP** for the Conference ID
 - your email address
 - a password
3. Continue to enter information as prompted.

An Online confirmation will be displayed and an email confirmation will be sent verifying your account setup.

Previous users of PDF eXpress or IEEE PDF eXpress need to follow the above steps, but should enter the same password that was used for previous conferences. Verify that your contact information is valid.

Returning users: Enter “**51172XP**” for the Conference ID, email address and password.

4. For each conference paper, click “Create New Title”.
5. Enter identifying text for the paper.
6. Click “Submit File for Checking or Converting”.
7. Click “Browse”, navigate to a file and click “Upload File”. You will receive online and email confirmation of successful upload.
8. You will receive an email with your Checked PDF or IEEE PDF eXpress-converted PDF attached. If you submitted a PDF for Checking, the email will show if your file passed or failed.

Do not change the filename generated by IEEE PDF eXpress system !!!

9. Submit your converted PDF paper to EPE 2019 website.
